Rodion Myshalov

Backend Developer

About Me I am a motivated Backend engineer with 4+ years of experience. I develop my soft and hard skills and improve my technical expertise day by day. I have experience in various fields. I also have management and mentoring experience. My main activity is backend, but I am also well experienced with frontend commercial development. I prefer my software to be clean, scalable and readable.

Education

2018 - 2022, Far Eastern Federal University

BSc in Mathematics and Computer Science

Experience

Aug 2022 - June 2023, Fullstack Engineer, SOHO.LMS

Stack:

- Typescript, React, React Native
- Scala, Slick, Sangria
- PostgreSQL
- REST, GraphQL, gRPC
- Docker, Docker Compose
- Personal tasks management

SOHO.LMS is a platform for online education from the founders of SOHO.MBA business school. The system has complicated structure with several frontend applications (master app, student app, admin app, facade app etc.) and main backend application, which can determine from what application a request is processed. Basically, I was everywhere in the whole system, then I was assigned to develop separated React Native project for students.

Oct 2019 - Aug 2022, PHP Backend Developer, Taptima

Stack:

- PHP, Symfony, Laravel
- MySQL
- REST, GraphQL
- Docker, Docker Compose
- RabbitMQ, Redis
- System design and tech team management

Taptima is an outsource company, based in Vladivostok, which provides SaaS systems for business goals. I've built a lot of backend engines for several companies, for example:

- Whole system rebuild for Gorky's theater, integration with UCS for data sync and new ticket sales flow
- Tickets and products sales for Illuzion cinema
- Referral and bonus programs for crypto exchange service
- a bunch of CRM and CMS systems
